

Sample Maker (Freelance)

We're always looking for experienced project-based sample makers in the Hudson Valley area. If you're a brilliant sewist with a knack for beautiful garment construction, we want to hear from you! This is a freelance position with flexible hours and is based around our deadlines (we may have a lot of work for you leading up to a shoot or other deadline, and then there may be a lull between projects). This is a great role for someone looking to pick up some extra work. You will need to come to the Newburgh studio to pick up assignments and complete initial projects, but there will be some room to sew from home once you've learned the ropes.

Responsibilities

Sew samples:

- Construct vintage-style garments in all stages of production, from cutting and marking to finishing work
- Communicate and collaborate with designer and studio staff to meet production deadlines and follow in-house sewing practices
- Create muslin prototypes in early stages of a design
- Make pattern alterations as needed after model fittings

Qualifications

- Extensive garment sewing experience, including in professional settings
- Ability to sew from home (must have essential sewing equipment)
- Must be able to work in a pet-friendly environment

Compensation

- This is a freelance position
- \$20/hour

To Apply

Please send your resume to careers@charmpatterns.com with the subject line "Sample Maker" and include photos of finished garments you have sewn.
